The Story

Gulliver receives a letter from his friends, who ask him for help, and he immediately goes to Lilliput. Returning home, he sees remarkable changes have taken place on the island. Unexpectedly, the traveler and his true friends – Marsi, Frelock and the little mouse Squeak – find themselves in a whirlwind of extraordinary events. The gang encounters crafty enemies and experience break-neck chases, and adventures. But, together they can overcome any obstacle, because friendship and love always win!

Lilliput

Lilliput is a beautiful green island in the ocean bathing in the southern sunshine. The capital city, Mildendo, stands on top of a hill that clings to a tall cliff. The view of the turquoise sea from the palace is just splendid!

Characters

The Lilliputians are simple and kind-hearted, but the whims of their king, the threat from Blefuscu, and the appearance of Gulliver on their island turn their lives into an endless maelstrom of breathtaking adventures.

Lemuel Gulliver

The main character, Lemuel Gulliver, is young, handsome, jolly, and carefree. He always finds a way and wriggles out of any trouble. He is always busy with adventures and he is never bored!

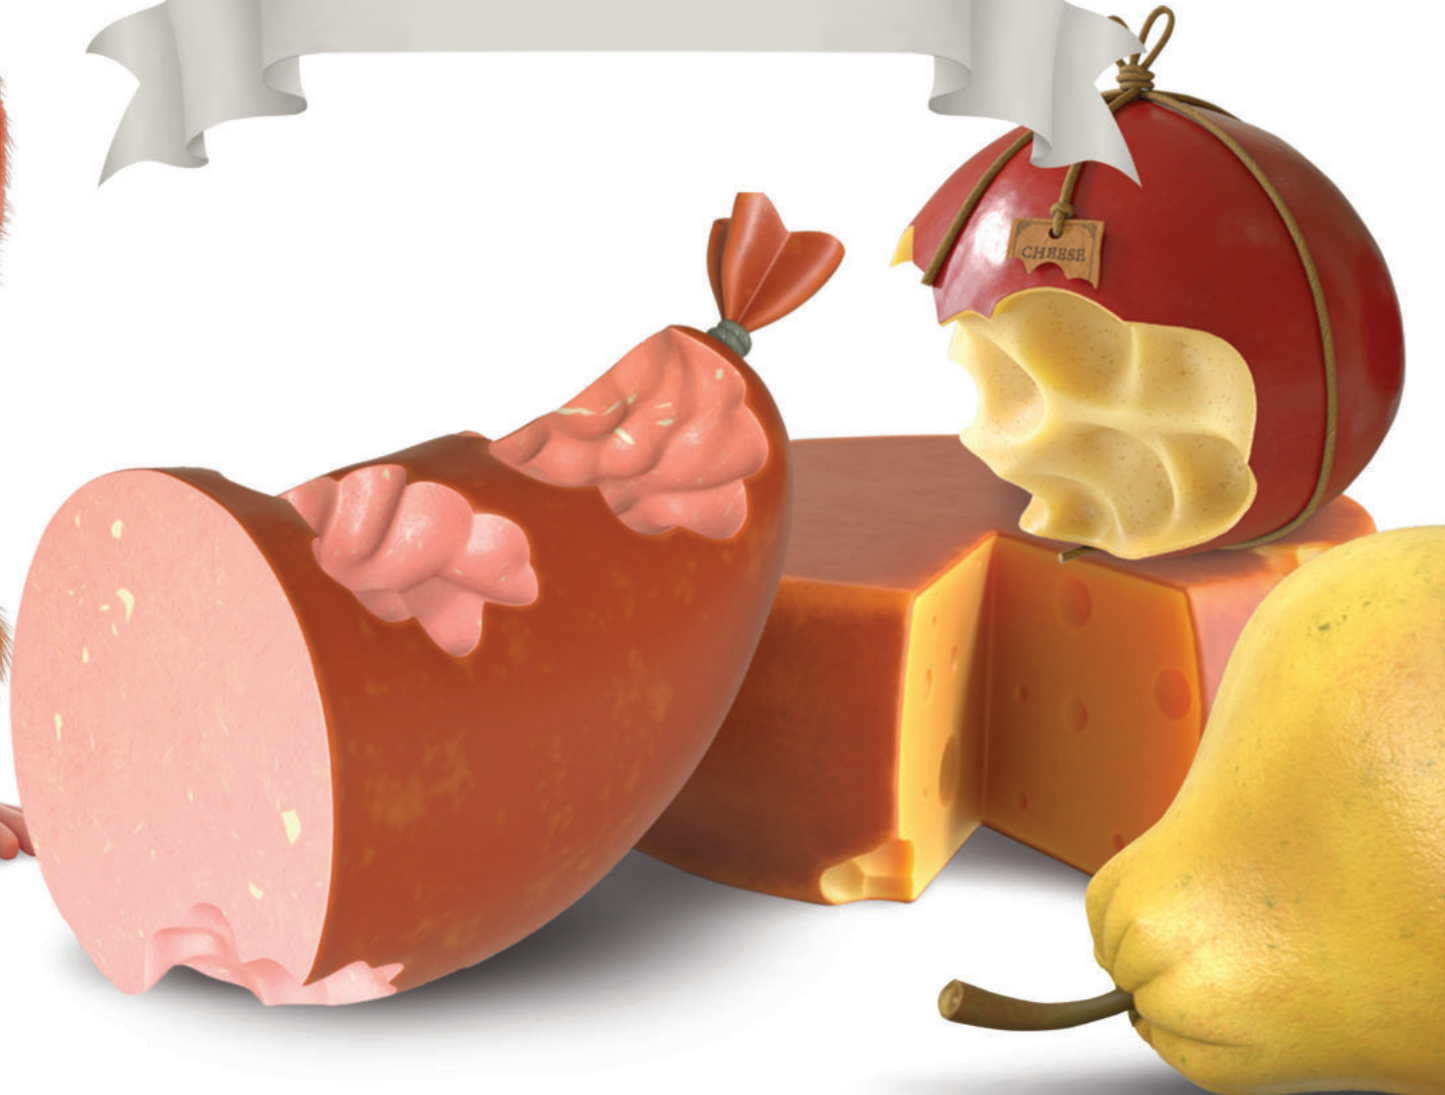

Marsi

Marsi is Frelock's daughter and Gulliver's friend. She is a serious, honest and open-hearted girl who inspires Gulliver. She mocks his over-confident and carefree manner, but always helps him when trouble arises. Marsi judges people by their deeds, not words.

Squeak

Squeak is a brisk, agile and emotional little mouse with human intellect. He is optimistic and brave. He is Gulliver's true friend. Squeak can walk or run both on his hind legs, and on all fours. He is always hungry.

King of Lilliput

The King of Lilliput is erratic and self-conceited. Rather than a cruel and dangerous tyrant, he is a crazy crackpot who contrives all kinds of nonsense just for fun.

Frelock

Frelock is Gulliver's old friend. He is big and strong, straightforward and dependable. He may make fun of Gulliver's actions or behavior but is ready to rush in and fight for Gulliver anytime. Frelock is the truest friend that one can ever dream of.

Generalissimus Blefusco

Generalissimus believes that everyone must take things up as a warrior. He is mighty strong, powerful, charismatic and ready to lead Blefuscu's army anywhere. He had been preparing for revenge on the Lilliput King for a long time and now his rush is virtually unstoppable.

The Mildendo Palace

The palace is an exquisite labyrinth where the king spends most of his time playing pranks and rubber-stamping nonsensical decrees.

A night scene of a rocky island. The sky is dark blue with a full moon and stars. The water is dark blue with ripples. In the center, a tall, black, cylindrical tower stands on a rocky island. The tower has a flame at the top and is surrounded by jagged, dark rocks. The scene is illuminated by the moon and the tower's light.

The Crown Tower

The mysterious huge black tower on the rocky island is where the most precious treasure – the Gold Crown – is kept. It is where Gulliver's adventures begin.

The Frelock's Hut

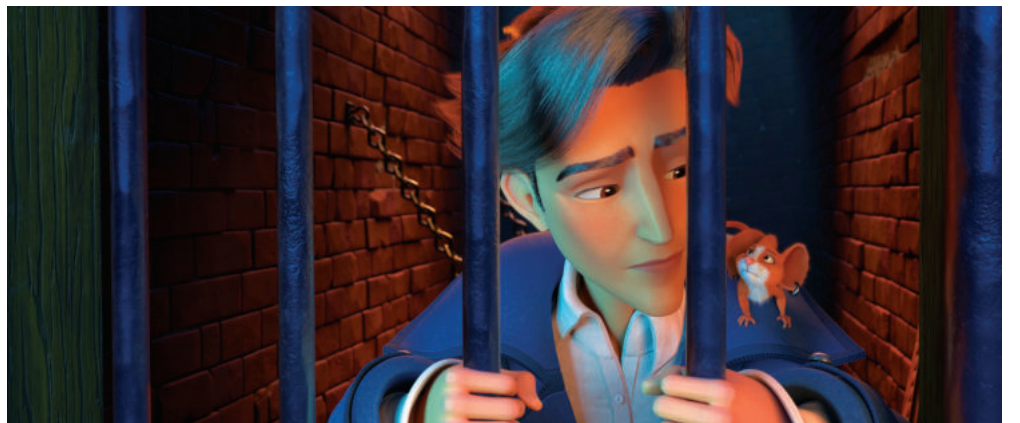

Frelock lives in a little fishing hut on a remote cape of Lilliput, far away from people. The only way to the hut lies through the Dark Thick Forest, but Marsi knows the way!

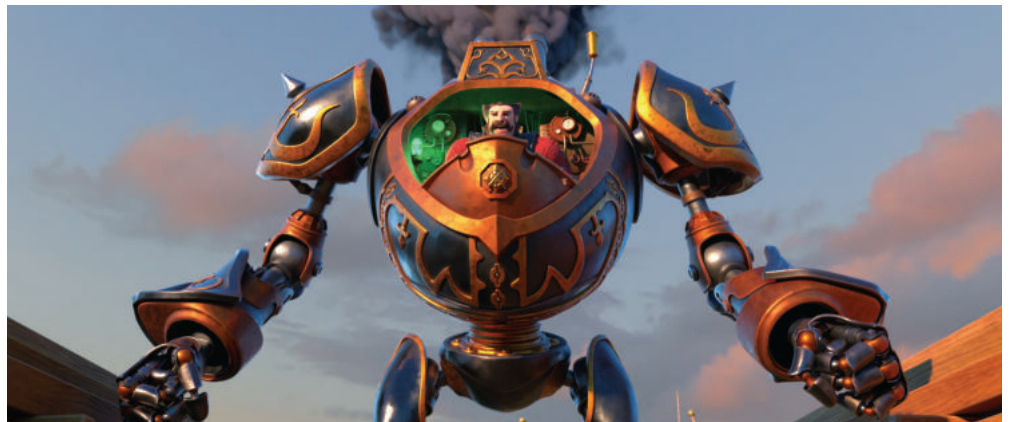

The Dungeon Prison

Gulliver gets thrown into the dungeon prison – an elaborate maze of tunnels and passages. It is not easy to escape from such a prison, but fortunately, Marsi has some tricks up her sleeve.

When as a director I was suggested to tell a whole-new story of Gulliver, the world-famous traveler, I did not think twice.

This is because the story has everything that I believe must be told to both children and adults – the narration of love, faith in friends and the power of good that always prevails over malicious intrigues. On top of that, the adventures of heroes that are featured in our cartoon movie have been spiced up with some intricate sense of humor. It turned out to be a vivid, funny and exuberating piece and I am delighted to be part of this outstanding project.
